Our breast enhancement procedures will give you the bosom you have always wanted.

Hair restoration

We can give you back a full head of hair.

Women's Wellbeing

From post partum to menopause, we're here to help.

THE GHANEM CLINIC

Plastic Surgery ■ Aesthetics ■ Wellbeing

The Ghanem Clinic is an award winning centre of excellence in plastic surgery, non-surgical aesthetics and regenerative medicine.

We take a holistic approach to helping you be the best version of yourself, enhancing your appearance, well-being and self-esteem to give you the confidence to lead a more fulfilling life.

Aesthetic enhancement is truly a blend of art and science. At The Ghanem Clinic we are uniquely placed to offer our patients the best of both. We combine the knowledge, skill and artistic judgement of the surgeon, with expertise in and access to an unrivalled range of the advanced non-surgical technologies necessary to achieve harmonious, natural looking results in line with our patient's individual needs and aspirations.

The Clinic was established by world renowned plastic surgeon Professor Ali Ghanem, who has curated a multi-disciplinary team of plastic surgeons and aesthetic doctors, supported by experienced therapists, nurses and patient co-ordinators to ensure our patients receive the finest medical care.

We are committed to providing you with a relaxed and discrete environment to enhance your treatment experience. Our state-of-the-art premises on Upper Wimpole Street in the heart of London's medical district are home to a dedicated operating theatre, three therapy suites equipped with the very latest in non-invasive aesthetics technologies, and stylish consulting rooms where your journey of aesthetic transformation begins.

UK ASSOCIATION OF AESTHETIC PLASTIC SURGEONS

This brochure sets out the services, treatments and procedures we offer with a guide to our fees. The prices we show are from prices based on treatment area. Patients will need to come into the clinic for a consultation with one of our clinicians, or arrange a virtual consultation, at which we will review your aesthetic goals and needs, and provide you with a recommended and costed treatment plan.

Multi-Modal Combination Protocols

As experienced plastic surgeons we offer our patients treatments based on comprehensive knowledge of human anatomy. Consequently, when a non-surgical solution to an aesthetic concern is preferred by the patient, we believe that science and evidence-based intervention should be assessed and delivered using that same level of anatomical expertise.

That's why we have invested in what we believe to be the most effective energy-based aesthetics technologies available. However, most of these are single modality interventions that cannot offer the holistic and comprehensive results we strive for. Using our expertise, we have therefore developed exclusive combination protocols that take the results of treatment using these devices to a whole new level.

Our bespoke treatment protocols draw on and combine the benefits that individual technologies offer, as well as complement them with other non-invasive injectable and regenerative treatments. The result is a series of exclusive G-protocols, developed by Professor Ghanem and his expert team, each specifically developed to address key aspects of facial aging: skin laxity, volume and surface.

LAXITY	PRICE FROM
G Firm	£11,500
G Tite	£12,000

SURFACE	
G Touch	£3,600
G Glow	£3,000
G Reverse	£3,000
